Proven critical care performance in portable ventilation.

LTV® 1000 ventilator (patients 5 kg to adult)
Powerful, lightweight, proven ventilation technology

At a fraction of the size of comparably equipped systems, the LTV® 1000 ventilator provides the ventilation solutions you need throughout the continuum of patient care. Turbine technology eliminates the need for compressed air, allowing transport ventilation where and when you need it. The LTV® 1000 ventilator can be used on the ground, in the air and throughout the hospital.

Versatility and convenience

The LTV® 1000 ventilator is available for use on a stand, in a backpack or in a custom carrier. It has the versatility to be mounted inside air or ground transport using the LTV® dovetail bracket mounting system or a custom fitting bracket for your medical patient transport vehicle. The easy to read LED display panel and front panel buttons combine for quick and convenient operation for the user.

Multiple power sources

A wide variety of power sources are available for the LTV® 1000 ventilator. The internal battery offers an extra layer of power protection ensuring security and confidence for your patient and the caregiver. The LTV® 1000 ventilator can be connected directly to a wall outlet using the LTV AC adaptor, to an automobile power adaptor or to external battery options, including our SprintPack™ battery.

A wide range of ventilation therapies for patients

The LTV® 1000 ventilator offers both invasive and non-invasive modes of ventilation in Pressure Control, Pressure Support, Volume Control and Spontaneous breath types, delivered with flow triggering. A built-in blender provides O₂ from 21-100% or a low pressure O₂ source can be used to bleed in oxygen. The addition of SIMV, CPAP and Apnea back-up combine to create powerful portable ventilation technology.
### LTV® 1000 ventilator specifications

#### Physical specifications

<td>10 in (25 cm)</td>
<td>12 in (30 cm)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>14.5 lbs (6.5 kg)</td>
<td>3.25 in (8.4 cm)</td>
<td>10.5 in (27 cm)</td>
<td>13.5 in (38 cm)</td>
</tr>
</tbody>
</table>

#### Variable alarms

- Apnea interval: 10 to 60 seconds
- High pressure limit: 5 to 100 cmH₂O
- Low peak pressure: Off, 1 to 60 cmH₂O
- Low minute volume: Off, 0.1 to 99 liters
- High PEEP: Off, 3 to 40 cmH₂O
- High rate: Off, 5 to 80 bpm
- Alarm volume: 60 to 80 dBA at 1 meter
- Alarm silence/reset: 60 seconds
- Ventilator inoperative: Red LED, audible alarm

#### Fixed alarms

- Disconnect/sense line
- External power low and lost
- High and low oxygen inlet pressure
- Internal battery low and empty
- Dual tones patient assist alarm

#### Extended features

- Variable rise time: 1-9 profile
- Variable flow termination: 10% to 40%
- Variable time termination: 0.3 to 3.0 seconds
- Leak compensation: On/off
- O₂ cylinder duration calculation
- Apnea backup ventilation

#### Monitors and indicators

- Peak inspiratory pressure: 0 to 120 cmH₂O
- Mean airway pressure: 0 to 99 cmH₂O
- PEEP: 0 to 99 cmH₂O
- Total breath rate: 0 to 250 bpm
- Airway pressure display: -10 to 108 cmH₂O
- Exhaled tidal volume: 0 to 4000 ml
- Exhaled minute volume: 0 to 99.9 liters
- I:E Ratio, measured: 99:1 to 1:99
- Calculated peak flow: 10 to 100 lpm
- AutoPEEP: 0 to 999 cmH₂O
- Static compliance: 1 to 999 ml/cmH₂O
- Patient effort: Green LED

#### Pneumatic specifications

- Pressure oxygen: 40 to 80 PSIG (2.8 to 5.5 bar)
- Low pressure source: < 80 lpm, < 10 PSIG

#### Power indicators

- External power: Green and amber LEDs
- Battery charge status: Green, amber and red LEDs
- Battery level: Green, amber and red LEDs

#### Power specifications

- Ventilator input: 11 to 15 VDC
- AC adaptor input: 100 to 250 VAC

#### Environmental specifications

- Operating temperature: 5° to 40° C (40° to 104° F)
- Storage temperature: -20° to 60° C (-4° to 140° F)
- Operating humidity: 15% to 95% relative
- Storage humidity: 10% to 95% relative
- Vibration compliance: MIL-STD-810E, IEC 68-2-6, IEC68-2-34

#### Standards and regulatory compliance

- cETLus Listed
- ISO 13485 Registered (FM 75092)
- IEC 601-1-2
